TERRITORY ACQUIRED BY STRUGGLE

(By Associated Press.)

BERLIN, March 8.—In occupied districts of France and Belgium, which the Associated Press correspondent has just visited, the Germans are plainly preparing for a long occupation, should it be necessary. Everywhere one sees instances of their national thoroughness. Whenever repairs have been undertaken they all have been carried out solidly and methodically. Even enameled street signs occasionally appear where the name of a street has been changed. The "zoo" has become a "Bahnhof," permanent signs limiting the speed or course of automobiles have been set up, and the visitor from the fatherland feels himself quite at home in the once French public buildings at beholding the old familiar placards, "Do not spit on the floor," or "Throw refuse in this basket."

Mingling with the uniforms of the

soldiers are the sober uniforms of the German postal and railway authorities. The struggles of their wearers to understand and make themselves understood with the French inhabitants form a humorous side of war. Some of them have acquired a few words of French, and some of the inhabitants have reciprocated by learning a few German words. These, with the help of an assortment of fearful and wonderful gestures, generally succeed in clearing up the situation. When all means fail, appeal is made to some bystander.

In two weeks in the occupied district, the correspondent did not observe a single case of incivility on the part of German soldiers or government officials toward the French inhabitants. On the contrary, the Germans invariably displayed great patience and civility.

WANT IRRIGATION
OF LEMONS VALLEYPETITION SENT TO WASHINGTON
BY RESIDENTS OF RENO
AND VICINITY

(Special Correspondence of the Bonanza.)

WASHINGTON, March 8.—A petition, signed by almost everyone of importance in Reno and vicinity, has been sent to the secretary of the interior asking for government aid in securing water for the irrigation of the Lemons valley, which lies just north of Reno and near the California boundary. The name of Gov. Emmet D. Boyle heads the list, which includes many state officials, professional and business men. The petition is as follows:

"Whereas, There are more than 10,000 acres of the richest and most fertile agricultural lands of the State of Nevada, lying in Lemons valley, about eight miles north of Reno, in the County of Washoe; and

"Whereas, Surveys have heretofore been made showing that water sufficient to irrigate all of said lands can be obtained and conducted, thereto; and

"Whereas, The cultivation of said 10,000 acres of land would increase the population and promote the business interests of Reno and vicinity and be of inestimable benefit thereto, and greatly add to the productivity and wealth of this state;

Now, therefore, we, the undersigned citizens of the United States and residents of the State of Nevada, do hereby petition and request you to procure the assistance of the government of the United States in constructing the necessary reservoirs and other works for impounding flood waters and conducting the same to said lands for the purpose of irrigating the same. And your petitioners will ever pray."

This movement has been underway for some time. In fact, efforts have been made for years to secure irrigation in this region, and Honey Lake, across the boundary line in California, has been talked of for years as a source of water for irrigation.

Senators Newlands and Pittman are very greatly interested in this latest agitation for a new irrigation district, and they will do everything in their power to co-operate with the interior department in making it a reality.

THE BODIE STANDARD
MINE CHANGES HANDS

The famous old Standard mine at Bodie, out of which the late William M. Lent, of San Francisco, affectionately known as the stock board and in the mines as "Uncle Bill," took his great fortune, was transferred last week at Bodie to J. S. Cain, a pioneer of Mono county, and owner of the South End mines.

Nevada News in Briefest Shape

MAKES BIG SALE

C. T. Mullins, proprietor of the Mayberry ranch on the Truckee river, located four miles west of Reno, recently sold that property to a group of Truckee wood contractors for \$70,000 cash. Mullins came to Reno fifteen years ago from Arkansas with only \$5.75 in his pocket. The ranch was one of the most famous in Nevada because of the soil.

DESERTER RELEASED

George Robertson, the 19-year-old freshman of the University of Nevada who has been languishing in jail for the past few days on the charge of abandoning his wife and baby in North Carolina, was recently released from his confinement in the Reno bastille on \$500 bonds furnished by his father, a wealthy plantation owner. An officer is on the way to take young Robertson back to North Carolina, where he must stand trial.

WOLVES IN EVIDENCE

Timber wolves believed to have entered the state from Oregon are giving the ranchers of Elko county a great deal of trouble. Numerous calves have been reported missing lately and their disappearance is laid at the door of the wolves, a pack of seven followed by a band of coyotes having been seen by ranchers on various occasions. In order that these four-footed beasts may be exterminated the ranchers of that section are planning a concerted action.

SUPER-CENTENARIAN
TAKES THE COUNTSEA CAPTAIN DIES AT 108 YEARS
AFTER HALF CENTURY
OF SERVICE

(By Associated Press.)

LONDON, March 8.—Captain David Jackson, 108 years old, who just died of heart failure at his home in Tooting, was for nearly fifty years a master mariner on ships between England and America. He made his first trip as a cabin boy in 1817.

Captain Jackson received a letter

CHINAMAN HELD

Long Fun, a Chinese of Tuscarora who was arrested in that town some time ago on a charge of selling whiskey to Indians, was taken to Elko recently and given a preliminary hearing. The court held that there was sufficient evidence to warrant the detention of Fun to answer to the grand jury. He will be taken to Carson in the near future.

WEDS COUNTESS

Arthur Lee Kelly, a mining graduate of the University of Nevada in 1908, who since graduation has been engaged in important mining operations in South America, was married at Los Angeles recently to Countess Mary Emily Marcelle von Reber. The marriage took place at the home of the bride's sister, Mrs. Wm. T. Keifer.

MARRIES ACCUSER

Fred May, who was arrested at Reno recently on a charge of assault and battery preferred by Mrs. Florence Kurtz after he had attacked and severely beaten her with his fists, wanted to get out of jail just after he had been in confinement for a few days. A bright idea struck him and sending for the bailiff, whom he used as messenger, he proposed to marry the woman if she would withdraw the charge. After considering the matter for a while she gave her consent and the ceremony was performed.

of congratulation from the king on his hundredth birthday, and a similar letter each year since.

One of the old man's boasts was that only once had he been aboard a steamship, all his other voyages having been in the days of sailing vessels.

TAX LEVY WILL BE LOWER

The state tax levy for the next two years will not be over 50 cents and may be as low as 45 cents, according to a statement made by Senator Fulmer, chairman of the senate ways and means committee, which is drafting the general appropriation bill.

Notice to Mining Corporations

Foreign corporations doing business in Nevada should heed the fact that their annual statements must be published before April 1. The following law applies to the publication:

Section 1. All foreign corporations doing business in the state of Nevada shall, not later than the month of March each year, beginning in the year 1914, publish a statement of their last year's business in some newspaper published in the state of Nevada. If published in a daily newspaper, such statement shall be published for a period of one week, or if published in a semi-weekly or tri-weekly newspaper, for a period of two weeks, or if published in a weekly newspaper for a period of four weeks.

Section 2. The secretary of the company publishing the statement shall file a copy with the several assessors of the state of Nevada.

Secretaries are urged to send in statements by return mail.

FILL OUT THE STATEMENT BELOW.

LUNDLEE BROS.

If you don't know—find out right here the principle of BRASCOLITE. And first of all—get this fact down pat. The depolished, white reflecting plane is flat—there's a reason. Long before a Brascolite was put on the market, while trying to perfect by Phonometric test the most efficient design, experiments were made with concave reflectors—all shapes of concavity—and discarded in favor of the flat. The flat reflecting plane is a patented feature of the Brascolite. And now are springing up attempted imitations of Brascolites—some with concave and some with convex reflectors (discarded principles)—none with flat reflecting planes, though—that's patented.

Brascolites Hung on Approval.
